**Administration report-** Testing went well. Scores are in Skyward. Remember if you have a Soph. scores may be low because they have not been exposed to content. Eric explained differences in the Explore, Plan and ACT. Kids typically don't score well on Algebra because they haven't seen since 8th grade. John Baylor is offered to all students. Boosters have contributed to this. All of your students can use this resource. Baylor will be here to talk to students on the 15th. Eric highly recommends John Baylor test prep for all of the kids. The state is in flux right now. They may no longer pay for ACT testing as they have in the past. Eric provided a quick tutorial on Standardized testing and College Readiness Benchmarks
